However, there are also some level 160 items for CUL, ALC, BSM and CRP under the Material tab of the GC stamp provider. I hope more people will get into it now that it is more accessible. There is no longer a collective cap so you can level them all to the maximum level of 520 (starting with patch 5.5). Demimateria You can also get sometimes Battlecraft, Fieldcraft or Demimateria clear. The level 80 Dungeons will handle GSM easily, and WVR, LTV and arm a little slower. New Features One of the most important changes that came starting with Patch 5.1 is that you no longer have to choose which disintegrators to Max out. GC items can be quite expensive in terms of stamps, but if you find that they always match up with them anyway, you might also be able to place some of them to use to level out your disintegration skills. Unintello Skill Level 115-260 There is a bit of a gap between ARR and Costwardward, but you can only jump straight to Ishgard once your skill becomes too high for the arren items. A supplier of jeweler, armourer, arms and field weapons. This was used in the manufacture of statistical potions at the middle level of Shadowbringers, but it is no longer as valuable. Shortly after the ShadowBringers expansion was released, the system saw a revamp to enhance both its relevance and accessibility. Disintegration Skill Level 260-390 Kogane Dori markets in Kugane are where you will find all relevant suppliers. The newest level of 80 Dungeon Drops gives the extract of the spirit, which is used for the most powerful dyes. GSM (29) and LTV (21) still have the bulk, but the arm (5), WVR (5), and even PCR (2) can get some disintegration leveling here. Each Crafter has a separate level of disintegration skill.
